Performance Review Institute Inc. Modern Slavery Statement

Introduction
This statement is made pursuant to Section 54 of the UK Modern Slavery Act 2015 and any similar state or government regulations. It constitutes the Performance Review Institute Inc.’s (PRI) slavery and human trafficking statement for the financial year ended 31 December 2019. Of PRI’s wholly-owned subsidiaries, this statement covers the activities of PRI Europe Ltd and PRI (Beijing) Certification Co. Ltd which procure goods and services from and form part of PRI Inc.’s supply chain. PRI is also a Member of Thorn Hill, LLC, whose sole purpose is to provide employees and employee benefits for its members in the United States.

This is PRI’s first Modern Slavery Statement and sets out the steps PRI is taking to prevent slavery and human trafficking within its supply chain or any part of its business.

Overview of PRI
PRI is the world leader in facilitating collaborative supply chain oversight programs, quality management systems approvals and professional development services to various industries including aerospace, medical device manufacturing and power generation.

PRI’s Supply Chain
The U.K. Modern Slavery Act (2015) is intended to address supply-chain issues and, although PRI does not generally rely on supply chains for the services it provides, PRI will work to ensure that it does not engage with companies that violate the spirit of such law.
PRI is committed to continuously improving its practices to identify and eliminate any slavery and human trafficking in its business and supply chains, and to acting ethically and with integrity in all its business relationships.
Policies

Due Diligence and Risk Assessments
PRI's Global Purchasing Manager will conduct a risk assessment of our global supply chain to determine its level of exposure to the risk of being involved in modern slavery and where that exposure is greatest. By completing this risk assessment, PRI will be able to identify any high-risk suppliers and take any necessary actions in collaboration with those suppliers to mitigate risk. Once complete the risk assessment will be reviewed and updated on an annual basis with findings presented in future Modern Slavery Statements.

Training
All employees receive annual training on PRI’s Code of Business Conduct that reinforces their obligation to follow applicable laws and report concerns of illegal or unethical activity. All employees must sign an annual statement acknowledging agreement with the Code of Business Conduct.

Looking Ahead
In the next financial year, PRI will extend its actions to include:

- The development of training to build awareness of modern slavery and ethical sourcing issues among employees, particularly those responsible for overseeing its modern slavery due diligence as well as buyers of products and services.
- A commitment to make appropriate updates to its terms and conditions to ensure all its vendors and consultants comply with all applicable anti-slavery and human trafficking statutes and regulations.
- A commitment to conduct a risk assessment of its global supply chain to identify any high-risk suppliers.

To assess the effectiveness of the measures taken, PRI will report on the following key performance indicators in future Modern Slavery Statements:

- Employee training completion
