INNOVATING CRITICAL PROCESS OVERSIGHT

Enhance patient safety
Improve device quality
Reduce recalls
Leveraging their considerable collective experience in this field, industry experts have collaborated to create a deep dive technical audit process which provides exceptional supply chain oversight in the following areas:

- Cable & Wire Harness
- Heat Treating
- Plastics
  - Injection Molding
  - Extrusion
  - Mechanical Assembly
- Printed Boards (Bare Boards)
- Printed Circuit Board Assemblies
- Sterile Device Packaging
- Sterilization
- Welding

Processes accredited by MedAccred will continue to grow based on industry and FDA input.

What is MedAccred®?

MedAccred is a medical device industry-managed supply chain oversight program which identifies and verifies compliance to critical manufacturing process requirements.

Why MedAccred?

- Enhances rigorous oversight of critical manufacturing processes
- Helps identify highest quality suppliers
- Supports supplier risk management strategies
- Reduces redundant onsite customer audits
- Aligns with FDA’s Case for Quality (CfQ)
Benefits to Manufacturers
• Improves quality of products
• Reduces scrap and rework
• Opportunity to leverage MedAccred Accreditation to gain new business

MedAccred Subscribers
Baxter
BD
Boston Scientific
Edwards Lifesciences
Johnson & Johnson
Medtronic
Philips
Roche Diagnostics
Stryker
Baxter
BD
Boston Scientific
Edwards Lifesciences
Johnson & Johnson

Subscribers fund and manage MedAccred, determine audit criteria, have full access to audit findings, and determine who is granted MedAccred Accreditation.
